

SCENE FROM SENIOR PLAY — One of the exciting scenes awaiting the audience at Friday night's performance of "Tiger House" by the senior class in Jane Ferguson cast as "The Mystery Woman" being aided by Yami, a Hindu, played by Jim Kincaid, Macintosh, played by Tommy Ferguson, and Mrs. Murdock, played by Kay Hodnett. Performance time is 7:30 p.m. in the high school auditorium.

## Senior Class to Present Mystery Comedy, 'Tiger House' Friday

It is no April's Fool. The Senior Play will be Friday night, April 1, at 7:30 p.m. in the high school auditorium.

The class will present Robert St. Clair's thrilling mystery comedy entitled "Tiger House."

This clever mystery play, which has been played by more than 3,000 schools after a long, successful run on the professional stage is laid around an isolated country estate called "Mystery Manor," because of the alleged hauntings.

Erma Lowrie, a young shop girl, has inherited the estate from her eccentric aunt, and according to the terms of the will she must occupy the house for a period of one year.

Erma's cousins, Arthur Hale and Oswald Kerins, her living Aunt Sophia and Peggy Van Ess, a former girl friend, are all house guests when things begin to happen! And then well—well, it must be

seen to learn the mysterious details. There is a delightful thread of romance, clean and highly-amusing comedy; and, although the mystery element dominates, there are no dead bodies, no shots fired and nothing really gruesome happens.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner  
A small shower fell last night and it is damp and cloudy this Monday morning, gives us hopes for rain. Next week will be April, here is hoping we receive some of those traditional showers, only we need more than showers, we need rains.

Guess a report on our sick folks is in order and we have several this week. First, George Wainscott is still doing well, only sore from the unusually long incision, but they are happy over the results of the surgery.

Our Sunday School superintendent, Woodrow Goodwin, was absent Sunday morning and night also, being home with an upset stomach. Elmer Joiner has been fighting a case of flu for the past ten days.

Mr. and Mrs. Flavil Holmes arrived home last Saturday afternoon, from Temple, where he spent the week in Scott and White Hospital having tests made. Mr. Holmes has

a heart ailment, the doctors at Temple prescribed complete rest for two weeks, after which he hopes to get back to a normal life in a few more weeks.

Mr. and Mrs. H. L. Ford visited with the Elmer Joiners a while Wednesday night.

Our community, as well as the other ones concerned, is elated over the prospects of getting the water line from town out our way. Although most of us have a water system of sorts, most of it is hard water, and it would be wonderful to have good water in any faucet you turned on. Although the church house has a pretty good set-up, as far as water is concerned, it was voted Sunday night to take a membership, for we felt like a church should take the lead in trying for a better community. Who can tell, if we do get water out this way there may be more homes built, and we could get more folks in our church.

Buddy Sipe, a young Har-

din-Simmons student preacher, from Abilene, preached both times Sunday. He was accompanied by his wife and small son. Rev. Sipe is a cousin of the man, Waylon Williams, that preached last Sunday, and was also reared in the Longworth community between Hamlin and Sweetwater. His wife plays the piano and they are both good singers.

The visiting preacher took lunch with the Winson Grays.

Three women from our church attended the W. M. U. meeting, last Wednesday morning, in the home of Mrs. Jerry Williams, in Hamlin. In spite of a low attendance, one from Hanna and two from Neinda, a good time was had in our study and fellowship. We urge more of our ladies to come and participate in these mission studies. Besides learning about mission work, it also gives the ladies of the three churches an opportunity to fellowship together. The next meeting of both the W.M.U. and brotherhood. Lets all keep that date in mind and keep

The Junior members of the Student Council are back to their studies after returning from the meeting of the Texas Association of Student Councils held at the L. D. Bell High School in Hurst, Texas. Randy Smith, Robert Moore, Margaret Johnson, Helen Moore, and Mr. Wink, attended the meeting. They attended general sessions, discussion groups led by Student Council members from other schools, and problem clinics. There were also get-acquainted parties and luncheons to attend. They found that the discussion groups and problem clinics were the most interesting and informative meetings that they attended. There they were able to discuss responsible school spirit, fund raising projects in small schools, and new ideas for student council projects. They had a wonderful time and received new ideas as well.

On March 24, Mr. Paul J. Siebenmann, employed by T. A. N. E., spoke in an assembly on the evil effects of narcotics, alcohol, and smoking. Films about the subject were impressive. He gave examples of great and successful men whose lives were ruined by the use of alcohol and narcot-

the date with the Neinda folks.

Mrs. J. E. McCoy and Mrs. Elmer Joiner went to Anson last Tuesday, to the meeting conducted by Mrs. Martha Smith, from the Carmel Company, on advanced sewing tips. Mrs. Smith lives in Lubbock and works this area, for the company, showing techniques. A session was held in the morning as well as another in the afternoon.

Last Wednesday afternoon, Mr. and Mrs. Henry went to the Rotan area, to visit with her sister, Mr. and Mrs. Obie Wright.

Mr. and Mrs. Roy Watts were out Friday night looking for the Holmes, who had not returned home at that time, so they visited with the Elmer Joiners.

ies. He left the students with much to think about.

The National Honor Society is sponsoring a spring clean-up program this month. Members are making posters and decorating bulletin boards each week to promote the program. This program seems to have started at just the right time. The Interscholastic League District Contests are to be held here on April 2, and we need to have a clean building. Members of NHS are also hosting the contests this year by welcoming the visitors, serving refreshments, acting as guides, and doing various other things.

Citizens of the month for December, January, and February were announced by Jan Albritton, NHS president, at an assembly March 24. They were as follows: Donna Compton, senior, and Augustin Barron sophomore, for December; Suzanne Wicker and Mike

Murphree, both juniors, for January, and Pam Holtz, junior, and Gil Lain, freshman, for February.

## Cub Scouts Tour Herald Plant Mon.

Cub Scouts of Den Eight, Troop 43, toured the Hamlin Herald newspaper plant Monday afternoon. They were shown through the operation by Mrs. Bob Craig.

After watching the operator, George Boren, set their names on the Linotype machine, each visitor was given a slug with their name on it.

## Notice of School Desegregation Plan Under Title VI of the Civil Rights Act of 1964

THIS NOTICE IS MADE AVAILABLE TO INFORM YOU ABOUT THE DESEGREGATION OF OUR SCHOOLS. KEEP A COPY OF THIS NOTICE. IT WILL ANSWER MANY QUESTIONS ABOUT SCHOOL DESEGREGATION

### 1. Desegregation Plan in Effect

The Hamlin public school system is being desegregated under a plan adopted in accordance with Title VI of the Civil Rights Act of 1964. The purpose of the desegregation plan is to eliminate from our school system the racial segregation of students and all other forms of discrimination based on race, color, or national origin.

### 2. Thirty-Day Spring Choice Period

Each student or his parent, or other adult person acting as parent, is required to choose the school the student will attend next school year. The choice period will begin on March 24, 1966 and close April 22, 1966.

### 3. Explanatory Letters and School Choice Forms

On the first day of the choice period, an explanatory letter and this notice will be sent by first-class mail to the parent, or other adult person acting as parent, of each student then in the schools who is expected to attend school the following school year. A school choice form will be sent with each letter, together with a return envelope addressed to the Superintendent. Additional copies of the letter, this notice and the choice form are freely available to the public at any school and at the Superintendent's office.

### 4. Returning the Choice Forms

Parents and students, at their option, may return the completed choice forms by hand to any school or by mail to the Superintendent's office, at any time during the 30-day choice period. No preference will be given for choosing early during the choice period. A choice is required for each student. No assignment to a school can be made unless a choice is made first.

### 5. Choice Form Information

The school choice form lists the names, locations and grades offered for each school. The reasons for any choice made are not to be stated. The form asks for the name, address and age of the student, the school and grade currently or last attended, the school chosen for the following year, the appropriate signature, and whether the form has been signed by the student or his parent. Any letter or other written communication which identifies the student and the school he wishes to attend will be deemed just as valid as if submitted on the choice form supplied by the school system. The names of students and the schools they choose or are assigned to under the plan will not be made public by school officials.

### 6. Course and Program Information

To guide students and parents in making a choice of school, listed below, by schools, are the courses and programs which are not given at every school in this school system. NONE

### 7. Signing the Choice Form

A choice form may be signed by a parent or other adult person acting as parent. A student who has reached the age of 15 at the time of choice, or will next enter the ninth or any higher grade, may sign his own choice form. The student's choice shall be controlling unless a different choice is exercised by his parent before the end of the period during which the student exercises his choice.

### 8. Processing of Choices

No choice will be denied for any reason other than overcrowding. In cases where granting all choices for any school would cause overcrowding, the student's choosing the school who live closest to it will be assigned to that school. Whenever a choice is to be denied, overcrowding will be determined by a uniform standard applicable to all schools in the system.

### 9. Notice of Assignment, Second Choice

All students and their parents will be promptly notified in writing of their school assignments. Should any student be denied his choice because of overcrowding he will be promptly notified and given a choice among all other schools in the system where space is available.

### 10. Students Moving Into the Community

A choice of school for any student who will be new to the school system may be made during the spring 30-day choice period or at any time before he enrolls in school. An explanatory letter, this notice and the school choice form will be given out for each new student as soon as the school system knows about the student. At least seven days will be allowed for the return of the choice form when a choice is made after the spring 30-day choice period. A choice must be made for each student. No assignment to any school can be made unless a choice is made first.

### 11. Students Entering First Grade

The parent or other adult person acting as parent,

of every child entering the first grade is required to choose the school his child will attend. Choices will be made under the same free choice process used for students new to the school system in other grades, as provided in paragraph 10.

### 12. Priority of Late Choices

No choice made after the end of the spring 30-day choice period may be denied for any reason other than overcrowding. In the event of overcrowding, choices made during the 30-day choice period will have priority. Overcrowding will be determined by the standard provided for in paragraph 8. Any parent or student whose first choice is denied because of overcrowding will be given a second choice in the manner provided for in paragraph 9.

### 13. Tests, Health Records and Other Entrance Requirements

Any academic tests or other procedures used in assigning students to schools, grades, classrooms, sections, courses of study, or for any other purpose, will be applied uniformly to all students without regard to race, color or national origin. No choice of school will be denied because of failure at the time of choice to provide any health record, birth certificate, or other document. The student will be tentatively assigned in accordance with the plan and the choice made, and given ample time to obtain any required document. Curriculum, credit, and promotion procedures will not be applied in such a way as to hamper freedom of choice of any student.

### 14. Choices Once Made Cannot be Altered

Once a choice has been submitted, it may not be changed, even though the choice period has not ended. The choice is binding for the entire school year to which it applies, except in the case of (1) compelling hardship, (2) change of residence to a place where another school is closer, (3) the availability of a school designed to fit the special needs of a physically handicapped student, (4) the availability at another school of a course of study required by the student, which is not available at the school chosen.

### 15. All Other Aspects of Schools Desegregated

All school-connected services, facilities, athletics, activities and programs are open to all on a desegregated basis. A student attending school for the first time on a desegregated basis may not be subject to any disqualification or waiting period for participation in activities and programs, including athletics, which might otherwise apply because he is a transfer student. All transportation furnished by the school system will also operate on a desegregated basis. Facilities will be desegregated, and no staff member will lose his position because of race, color or national origin. This includes any case where less staff is needed because schools are closed or enrollment is reduced.

### 16. Attendance Across School System Lines

No arrangement will be made, or permission granted, by this school system for any students living in the community it serves to attend school in another school system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin. No arrangement will be made, or permission granted, by this school system for any students living in another school system to attend school in this system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin.

### 17. Violations To Be Reported

It is a violation of our desegregation plan for any school official or teacher to influence or coerce any person in the making of a choice or to threaten any person with penalties or promise favors for any choice made. It is also a violation of Federal regulations for any person to intimidate, threaten, coerce, retaliate or discriminate against any individual for the purpose of interfering with the free making of a choice of school. Any person having any knowledge of any violation of these prohibitions should report the facts immediately by mail or phone to the Equal Educational Opportunities Program, U.S. Office of Education, Washington, D.C., 20202 (telephone 202-962-0333). The name of any person reporting any violation will not be disclosed without his consent. Any other violation of the desegregation plan or other discrimination based on race, color, or national origin in the school system is also a violation of Federal requirements, and should likewise be reported. Anyone with a complaint to report should first bring it to the attention of local school officials, unless he feels it would not be helpful to do so. If local officials do not correct the violation promptly, any person familiar with the facts of the violation should report them immediately to the U.S. Office of Education at the above address or phone number.

## SYLVESTER NEWS...

By Mrs. R. M. Babb  
My, My, the weather does change in a hurry sometimes, but guess we should be used to it by now. We still need rain badly.

Mr. and Mrs. A. J. Ford and Mrs. Tindal drove to Stephenville on Sunday to visit the Darrel Mauldin. Mrs. Tindal will spend a few days with them.

Mr. and Mrs. W. B. Brown, Mrs. Landon Perkins spent the weekend in Lubbock and Levelland. The Browns visited their son and family in Lubbock then over to Levelland to see the Max Deel family.

At this writing I know of no one in the hospital. Mr. Robinson and J. P. Maberry are doing fine.

Woodford and Lorena Pursley just had to go see those grandchildren in Big Spring this weekend.

Charles Morton decided he wanted to see his family in Farwell, so his grandparents, the Med Herrons took him over the weekend.

Mr. and Mrs. Joe Spikes, Mr. and Mrs. Derwin Maberry and children of Abilene and Mr. E. C. Kiser spent the day in the Roy Kiser home and enjoyed a picnic lunch on the river.

Glenn Moffitt and his wife of Aspermont and Thurmond Douglass of Little Rock Ark. visited in the home of Mrs. M. D. Douglass over the weekend.

Mrs. A. J. Griffin has returned home. Accompanying her is a good friend, Mrs. Robeson of Okla. City, Okla.

The evening services at the Baptist Church were dismissed last Sunday and some twenty-five members attended the Revival meeting at the Methodist Church.

Mike and Kay Dobbs of Sweetwater spent the weekend in the Woodrow Lawlis home.

Friday night, Mr. and Mrs. Jim Lanning drove to the airport in Abilene to meet their son, Lt. Jimmy Lanning, who has been stationed in Germany for about fifteen months.

Believe it or not he is impatiently awaiting orders to go to Viet Nam, we wish him all the luck in the world.

Lavoie and Sue Dickerson accompanied Mr. and Mrs. Leon Dickerson to Waco over the weekend to visit relatives.

Just talk to Luke McCollum Sr. and Luke Jr. has been sent to Temple for tests and x-rays for a possible tumor. We hope every thing works out for the best.

Men of the Baptist church will take their trucks and pick ups to Hamlin on Sat. a.m. early to move the pastor on the field, the ladies are planning to fix lunch in the church basement.

Earnest Kiser came home on Sunday from Ft. Worth, having visited there for several days in the John Tankersly home.

Mrs. May Hurst has had a real case of the flu but is feeling much better.

We are expecting all our college students home this weekend or the middle of next week for Easter holidays.

## STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

Austin, Tex. — Texas has some 615,000 new voters as a result of the March 3-17 free registration period.

Turnout was six times larger than state officials had predicted and could be an indicator of a dawning new era in Texas politics.

More than half the total came from big counties — Harris with an estimated 100,000; Dallas with 96,017; Baxar with 88,100 and Tarrant with 50,662.

Gubernatorial candidate Stanley C. Woods and two members of the State Democratic Executive Committee are attempting to intervene in the federal court action resulting from the poll tax suit and force reopening of the registration up until 30 days before each election.

Atty. Gen. Waggoner Carr is strongly opposing the motion — arguing that all Texans interested in voting this year had ample opportunity to sign up during the 15-day period provided by the Legislature. Federal judges have promised a decision — after they review evidence — on whether the period should be lengthened.

Carr has submitted a 7,500-page report (including 3,500 newspaper articles from 500 Texas newspapers) to support his claim that everybody who wants to vote got a chance to qualify.

April Allowable Raised — Texas Railroad Commission, at a time when oil demand usually lightens, has raised statewide oil allowable for April to 33.7 per cent of potential.

Increase was the seventh straight monthly boost. Only once before in the last 20 years has April allowable been higher than March.

New allowable permits maximum production of 3,199,550 barrels a day. March operation is under 33.2 percent of potential factor, permitting production of 3,170,316 barrels daily.

Federal Funds — Texans hope to have eight new programs approved by the federal government by April 1 to launch a venture to promote technical services for business and industry.

Under the State Technical Act of 1965, programs approved by the U.S. Department of Commerce would make available new scientific and technological discoveries to inquiring businesses, industries and commercial enterprises.

Texas now is seeking \$144,000 for the last quarter of this year to get the requested program started at Texas Woman's University, University of Texas, Texas A & M University and Southern Methodist University.

Federal funds fully support these planning programs. These eight fields have been suggested in proposals submitted to the Commerce Department:

Texas A & M — Training formation specialists, chemical engineer workshop; electronic corporation managers primary metal industry and petroleum industry workshops. University of Texas — Continuing education for engineers.

South Methodist — Technical information services, North Texas.

Texas Woman's University — Activation analysis workshop.

Draft Quota Down — Col. Morris S. Schwartz, State Selective Service director, says 979 men will be called to fill the April draft quota. This is the lowest call since August, 1965.

Monthly calls in the period from September through March ranged from a low of 1,068 to a high of 1,523.

Pre-induction physical and mental examinations will be given to 3,005 men during April. This also is a reduction from March, when 5,515 were tested.

During the same period, he said, men classified as students rose from 85,000 to 104,000. At the end of January, there were 106,000 men classified in 2-S as students. Education Commissioner

## Senior Class to Present Mystery Comedy, 'Tiger House' Friday

It is no April's Fool, The Senior Play will be Friday night, April 1 at 7:30 p.m. in the high school auditorium.

The class will present Robert St. Clair's thrilling mystery comedy entitled "Tiger House."

This clever mystery play, which has been played by more than 3,000 schools after a long, successful run on the professional stage is laid around an isolated country estate called "Mystery Manor," because of the alleged hauntings.

Erma Lowrie, a young shop girl, has inherited the estate from her eccentric aunt, and according to the terms of the will she must occupy the house for a period of one year.

Erma's cousins, Arthur Hale and Oswald Kerins, her living Aunt Sophia and Peggy Van Ess, a former girl friend, are all house guests when things begin to happen! And then well--well, it must be

seen to learn the mysterious details. There is a delightful thread of romance, clean and highly-amusing comedy; and, although the mystery element dominates, there are no dead bodies, no shots fired and nothing really gruesome happens.

Members will receive water along a pipeline about 60 miles long he said.

Financing of the estimated \$355,000 project, said Decker, probably will be handled with a grant from the Farmers Home Administration and other government loans.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner  
A small shower fell last night and it is damp and cloudy this Monday morning, gives us hope for rain. Next week will be April, here is hoping we receive some of those traditional showers, only we need more than showers, we need rains.

Guess a report on our sick folks is in order and we have several this week. First, George Wainwright is still doing well, only sore from the unusually long incision, but they are happy over the results of the surgery.

Our Sunday School superintendent, Woodrow Goodwin, was absent Sunday morning and night also, being home with an upset stomach. Elmer Joiner has been fighting a case of flu for the past ten days.

Mr. and Mrs. Flavil Holmes arrived home last Saturday afternoon, from Temple, where he spent the week in Scott and White Hospital having tests made. Mr. Holmes has

a heart ailment, the doctors at Temple prescribed complete rest for two weeks, after which he hopes to get back to a normal life in a few more weeks.

Mr. and Mrs. H. L. Ford visited with the Elmer Joiners a while Wednesday night.

Our community, as well as the other ones concerned, is elated over the prospects of getting the water line from town out our way. Although most of sorts, most of it is hard water, and it would be wonderful to have good water in any faucet you turned on. Although the church house has a pretty good set-up, as far as water is concerned, it was voted Sunday night to take a membership, for we felt like a church should take the lead in trying for a better community. Who can tell, if we do get water out this way there may be more homes built, and we could get more folks in our church.

Buddy Sipe, a young Har-

din-Simmons student preacher, from Abilene, preached both times Sunday. He was accompanied by his wife and small son. Rev. Sipe is a cousin of the man, Waylon Williams, that preached last Sunday, and was also reared in the Longworth community between Hamlin and Sweetwater. His wife plays the piano and they are both good singers.

The visiting preacher took lunch with the Winsons Grays.

Three women from our church attended the W. M. U. meeting, last Wednesday morning, in the home of Mrs. Jerry Williams, in Hamlin. In spite of a low attendance, one from Hanna and two from Neinda, a good time was had in our study and fellowship. We urge more of our ladies to come and participate in these mission studies. Besides learning about mission work, it also gives the ladies of the three churches an opportunity to fellowship together. The next meeting of both the W.M.U. and brotherhood. Lets all keep that date in mind and keep

The junior members of the Student Council are back to their studies after returning from the meeting of the Texas Association of Student Councils held at the L. D. Bell High School in Hurst, Texas. Randy Smith, Robert Moore, Margaret Johnson, Helen Moore, and Mr. Wink, attended the meeting. They attended general sessions, discussion groups led by Student Council members from other schools, and problem clinics. There were also get-acquainted parties and luncheons to attend. They found that the discussion groups and problem clinics were the most interesting and informative meetings that they attended. There they were able to discuss responsible school spirit, fund raising projects in small schools, and new ideas for student council projects. They had a wonderful time and received new ideas as well.

On March 24, Mr. Paul J. Siebenmann, employed by T. A. N. E., spoke in an assembly on the evil effects of narcotics, alcohol, and smoking. Films about the subject were impressive. He gave examples of great and successful men whose lives were ruined by the use of alcohol and narcot-

the date with the Neinda folks.

Mrs. J. E. McCoy and Mrs. Elmer Joiner went to Anson last Tuesday, to the meeting conducted by Mrs. Martha Smith, from the Carmel Company, on advanced sewing tips. Mrs. Smith lives in Lubbock and works this area, for the company, showing techniques. A session was held in the morning as well as another in the afternoon.

Last Wednesday afternoon, Mr. and Mrs. Henry went to the Rotan area, to visit with Mr. and Mrs. Obie Wright.

Mr. and Mrs. Roy Watts were out Friday night looking for the Holmes, who had not returned home at that time, so they visited with the Elmer Joiners.

ies. He left the students with much to think about.

The National Honor Society is sponsoring a spring clean-up program this month. Members are making posters and decorating bulletin boards each week to promote the program. This program seems to have started at just the right time. The Interscholastic League District Contests are to be held here on April 2, and we need to have a clean building. Members of NHS are also hosting the contests this year by welcoming the visitors, serving refreshments, acting as guides, and doing various other things.

## Notice of School Desegregation Plan Under Title VI of the Civil Rights Act of 1964

THIS NOTICE IS MADE AVAILABLE TO INFORM YOU ABOUT THE DESEGREGATION OF OUR SCHOOLS. KEEP A COPY OF THIS NOTICE. IT WILL ANSWER MANY QUESTIONS ABOUT SCHOOL DESEGREGATION

### 1. Desegregation Plan in Effect

The Hamlin public school system is being desegregated under a plan adopted in accordance with Title VI of the Civil Rights Act of 1964. The purpose of the desegregation plan is to eliminate from our school system the racial segregation of students and all other forms of discrimination based on race, color, or national origin.

### 2. Thirty-Day Spring Choice Period

Each student or his parent, or other adult person acting as parent, is required to choose the school the student will attend next school year. The choice period will begin on March 24, 1966 and close April 22, 1966.

### 3. Explanatory Letters and School Choice Forms

On the first day of the choice period, an explanatory letter and this notice will be sent by first-class mail to the parent, or other adult person acting as parent, of each student then in the schools who is expected to attend school the following school year. A school choice form will be sent with each letter, together with a return envelope addressed to the Superintendent. Additional copies of the letter, this notice and the choice form are freely available to the public at any school and at the Superintendent's office.

### 4. Returning the Choice Forms

Parents and students, at their option, may return the completed choice forms by hand to any school or by mail to the Superintendent's office, at any time during the 30-day choice period. No preference will be given for choosing early during the choice period. A choice is required for each student. No assignment to a school can be made unless a choice is made first.

### 5. Choice Form Information

The school choice form lists the names, locations and grades offered for each school. The reasons for any choice made are not to be stated. The form asks for the name, address and age of the student, the school and grade currently or last attended, the school chosen for the following year, the appropriate signature, and whether the form has been signed by the student or his parent. Any letter or other written communication which identifies the student and the school he wishes to attend will be deemed just as valid as if submitted on the choice form supplied by the school system. The names of students and the schools they choose or are assigned to under the plan will not be made public by school officials.

### 6. Course and Program Information

To guide students and parents in making a choice of school, listed below, by schools, are the courses and programs which are not given at every school in this school system. NONE

### 7. Signing the Choice Form

A choice form may be signed by a parent or other adult person acting as parent. A student who has reached the age of 15 at the time of choice, or will next enter the ninth or any higher grade, may sign his own choice form. The student's choice shall be controlling unless a different choice is exercised by his parent before the end of the period during which the student exercises his choice.

### 8. Processing of Choices

No choice will be denied for any reason other than overcrowding. In cases where granting all choices for any school would cause overcrowding, the student's choosing the school who live closest to it will be assigned to that school. Whenever a choice is to be denied, overcrowding will be determined by a uniform standard applicable to all schools in the system.

### 9. Notice of Assignment, Second Choice

All students and their parents will be promptly notified in writing of their school assignments. Should any student be denied his choice because of overcrowding he will be promptly notified and given a choice among all other schools in the system where space is available.

### 10. Students Moving Into the Community

A choice of school for any student who will be new to the school system may be made during the spring 30-day choice period or at any time before he enrolls in school. An explanatory letter, this notice and the school choice form will be given out for each new student as soon as the school system knows about the student. At least seven days will be allowed for the return of the choice form when a choice is made after the spring 30-day choice period. A choice must be made for each student. No assignment to any school can be made unless a choice is made first.

### 11. Students Entering First Grade

The parent or other adult person acting as parent,

of every child entering the first grade is required to choose the school his child will attend. Choices will be made under the same free choice process used for students new to the school system in other grades, as provided in paragraph 10.

### 12. Priority of Late Choices

No choice made after the end of the spring 30-day choice period may be denied for any reason other than overcrowding. In the event of overcrowding, choices made during the 30-day choice period will have priority. Overcrowding will be determined by the standard provided for in paragraph 8. Any parent or student whose first choice is denied because of overcrowding will be given a second choice in the manner provided for in paragraph 9.

### 13. Tests, Health Records and Other Entrance Requirements

Any academic tests or other procedures used in assigning students to schools, grades, classrooms, sections, courses of study, or for any other purpose, will be applied uniformly to all students without regard to race, color or national origin. No choice of school will be denied because of failure at the time of choice to provide any health record, birth certificate, or other document. The student will be tentatively assigned in accordance with the plan and the choice made, and given ample time to obtain any required document. Curriculum, credit, and promotion procedures will not be applied in such a way as to hamper freedom of choice of any student.

### 14. Choices Once Made Cannot be Altered

Once a choice has been submitted, it may not be changed, even though the choice period has not ended. The choice is binding for the entire school year to which it applies, except in the case of (1) compelling hardship, (2) change of residence to a place where another school is closer, (3) the availability of a school designed to fit the special needs of a physically handicapped student, (4) the availability at another school of a course of study required by the student, which is not available at the school chosen.

### 15. All Other Aspects of Schools Desegregated

All school-connected services, facilities, athletics, activities and programs are open to all on a desegregated basis. A student attending school for the first time on a desegregated basis may not be subject to any disqualification or waiting period for participation in activities and programs, including athletics, which might otherwise apply because he is a transfer student. All transportation furnished by the school system will also operate on a desegregated basis. Facilities will be desegregated, and no staff member will lose his position because of race, color or national origin. This includes any case where less staff is needed because schools are closed or enrollment is reduced.

### 16. Attendance Across School System Lines

No arrangement will be made, or permission granted, by this school system for any students living in the community it serves to attend school in another school system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin. No arrangement will be made, or permission granted, by this school system for any students living in another school system to attend school in this system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin.

### 17. Violations To Be Reported

It is a violation of our desegregation plan for any school official or teacher to influence or coerce any person in the making of a choice or to threaten any person with penalties or promise favors for any choice made. It is also a violation of Federal regulations for any person to intimidate, threaten, coerce, retaliate or discriminate against any individual for the purpose of interfering with the free making of a choice of school. Any person having any knowledge of any violation of these prohibitions should report the facts immediately by mail or phone to the Equal Educational Opportunities Program, U.S. Office of Education, Washington, D.C., 20202 (telephone 202-962-0333). The name of any person reporting any violation will not be disclosed without his consent. Any other violation of the desegregation plan or other discrimination based on race, color, or national origin in the school system is also a violation of Federal requirements, and should likewise be reported. Anyone with a complaint to report should first bring it to the attention of local school officials, unless he feels it would not be helpful to do so. If local officials do not correct the violation promptly, any person familiar with the facts of the violation should report them immediately to the U.S. Office of Education at the above address or phone number.

STATE CAPITAL  
*Highlights AND Sidelights*  
by Vern Sanford  
TEXAS PRESS ASSOCIATION

Austin, Tex. — Texas has some 615,000 new voters as a result of the March 3-17 free registration period.

Turnout was six times larger than state officials had predicted and could be an indicator of a dawning new era in Texas politics.

More than half the total came from big counties — Harris with an estimated 100,000; Dallas with 96,017; Baxar with 88,100 and Tarrant with 50,662.

Gubernatorial candidate Stanley C. Woods and two members of the State Democratic Executive Committee are attempting to intervene in the federal court action resulting from the poll tax suit and force reopening of the registration up until 30 days before each election.

Atty. Gen. Waggoner Carr is strongly opposing the motion — arguing that all Texans interested in voting this year had ample opportunity to sign up during the 15-day period provided by the Legislature.

Federal judges have promised a decision — after they review evidence — on whether the period should be lengthened.

Carr has submitted a 7,500-page report (including 3,500 newspaper articles from 500 Texas newspapers) to support his claim that everybody who wants to vote got a chance to qualify.

April Allowable Raised — Texas Railroad Commission, at a time when oil demand usually lightens, has raised statewide oil allowable for April to 33.7 per cent of potential.

Increase was the seventh straight monthly boost. Only once before in the last 20 years has April allowable been higher than March.

New allowable permits maximum production of 3,199,550 barrels a day. March operation is under 33.2 percent of potential factor, permitting production of 3,170,316 barrels daily.

Federal Funds — Texans hope to have eight new programs approved by the federal government by April 1 to launch a venture to promote technical services for business and industry.

Under the State Technical Act of 1965, programs approved by the U.S. Department of Commerce would make available new scientific and technological discoveries to inquiring businesses, industries and commercial enterprises.

Texas now is seeking \$144,000 for the last quarter of this year to get the requested program started at Texas Woman's University, University of Texas, Texas A & M University and Southern Methodist University.

Federal funds fully support these planning programs.

These eight fields have been suggested in proposals submitted to the Commerce Department:

Texas A & M — Training formation specialists, chemical engineer workshop; electronic corporation managers primary metal industry and petroleum industry workshops.

University of Texas — Continuing education for engineers.

South Methodist — Technical information services, North Texas.

Texas Woman's University — Activation analysis workshop.

Draft Quota Down — Col. Morris S. Schwartz, State Selective Service director, says 979 men will be called to fill the April draft quota. This is the lowest call since August, 1965.

Monthly calls in the period from September through March ranged from a low of 1,068 to a high of 1,523.

Pre-induction physical and mental examinations will be given to 3,005 men during April. This also is a reduction from March, when 5,515 were tested.

During the same period, he said, men classified as students rose from 85,000 to 104,000. At the end of January, there were 106,000 men classified in 2-S as students.

Last week was like other weeks for the Junior High team. They had their volleyball game at Hawley Thursday night. Both teams lost out, but decided there would be other times.

The juniors and seniors have been getting ready for their play. It has been rush, rush, rush for them, but they will be ready for sure. They will present two one act plays: "The Cop and the Athlete" and "Oil Wells and Wedding Bell."

The date is set for Saturday, April 2, at 7 p.m.

Ann Kemp, senior, learned Tuesday that she received her state degree in FHA. Ann and

two other FHA members will go to the state meeting in San Antonio April 28. Degrees will be given out at the meeting. M. H. S. is really proud of Ann. She put out a lot of effort, but decided it was worth it.

"Load up and let's go see Earnie Ladd!" was heard in McCaulley Monday. McCaulley took anyone who wanted to Earnie Ladd to Abilene Monday night. Everyone that went really enjoyed it.

Last Thursday evening the M.H.S. freshmen had a picnic. According to the fish, they really had a nice time.
